EDUCATION

VIT-AP University
Master of Science in Data Science

Andhra Pradesh, IN
Sep 2023 – Sep 2025

KBN College
Bachelor of Science in Statistics

Andhra Pradesh, IN
Aug 2020 – Aug 2023

EXPERIENCE

MERN Stack Developer (Internship) [Link](#)
Research Center IMARAT DRDO, Hyderabad, IN

Dec 2024 – April 2025

- Designed and developed a secure document management system using **MongoDB**, **Express.js**, **React.js**, and **Node.js** to streamline research data validation and access control.
- Collaborated closely with DRDO scientists to implement real-time dashboards, user authentication, and role-based workflows for sensitive project documentation.

Data Analyst (Apprenticeship) [Link](#)
Quality Thought Infosystems, Vijayawada, IN

Jan 2023 – May 2023

- Built interactive dashboards and reports using Power BI**, transforming raw data into actionable insights for business decision-making.
- Performed data cleaning, DAX calculations, and KPI visualizations**, enhancing reporting efficiency and data-driven analysis.

PROJECTS

Blockchain-Based Document Management System [Link](#)

Dec 2024 – April 2025

- Designed and implemented a secure document workflow system using **Ethereum blockchain and smart contracts** for tamper-proof verification.

Sustainable Mobility: Electric Bike Adoption Analysis [Link](#)

Aug 2024 – Nov 2024

- Presented actionable insights on affordability, environmental impact, and infrastructure at **ICEPAM-2024 (International Conference)** through a presentation.

World Countries Development Analysis (Power BI) [Link](#)

Jan 2023 – May 2023

- Developed an interactive Power BI dashboard comparing global indicators like GDP, literacy rate, and life expectancy.
- Utilized DAX functions, filters, and custom visuals to allow dynamic, data-driven exploration across regions and timeframes.

ACHIEVEMENTS & CERTIFICATIONS

- Presentation at International Conference (ICEPAM-2024) of my research paper [Link](#)
- Natural Language Processing (NLP) in Python with 8 Projects Certificate [Link](#)

SKILLS

Front-End: HTML5, CSS3, Bootstrap (local), EJS, JavaScript

Back-End: Python, Django, Flask, Express.js, Node.js

Database: MySQL, MongoDB, Mongoose ORM

Version Control & Collaboration: Git, GitHub

Data Analytics & Visualization: Python (Pandas, NumPy, Matplotlib, Seaborn), R, Power BI, Excel

Machine Learning & AI: Scikit-learn, TensorFlow, OpenCV, CRNN, CNN, NLP, Transformers

Testing & Deployment: REST APIs, JSON, Deployment on Render/Vercel

Cloud Platforms: AWS, Google Cloud Platform (GCP)

IDEs & Tools: Visual Studio Code, Jupyter Notebook, Anaconda, Google Colab, Postman
