PROFESSIONAL SUMMARY

Aspiring Data Scientist with strong foundations in Machine Learning, Python, and Data Analytics. Experienced through internships and academic projects in developing predictive models, data preprocessing, and AI-driven solutions. Passionate about continuous learning in Deep Learning and General AI, with proven ability to collaborate in diverse teams and deliver actionable insights.

EDUCATION

VIT-AP University – Master’s in Data Science (Sep 2023 – Sep 2025)
KBN College – Bachelor’s in Computer Science (Aug 2020 – Aug 2023)

EXPERIENCE

- Data Science Intern | Research Center IMARAT (DRDO), Hyderabad | (Dec 2024 – Apr 2025)**
- Contributed to the development of an AI-powered document management system, supporting automation and improving validation speed by 35%.
- Data Analyst Apprentice | Quality Thought Infosystems, Vijayawada | (Jan 2023 – May 2023)**
- Collaborated on KPI reporting automation and dashboard creation using Power BI/DAX, reducing reporting cycles by 40%.
- Data Analyst Intern | Codegnan, Vijayawada | (July 2022 – Aug 2022)**
- Designed predictive models & BI dashboards using Python + Power BI.
 - Improved forecasting accuracy by 20% and reduced reporting time by 30%.

PROJECTS

- Stock Price Prediction (LSTM + TensorFlow)**
- Implemented an LSTM-based model for stock market prediction, gaining experience in sequence modeling and improving forecast accuracy.
- Text Summarization with Transformers (BART, Hugging Face)**
- Explored transformer-based summarization (BART) with Hugging Face, applying NLP techniques to generate research paper summaries
- Movie Recommendation System (Collaborative Filtering, ML)**
- Implemented recommendation engine using collaborative and content-based filtering.
 - Boosted recommendation relevance by **30%** compared to baseline popularity model.

ACHIEVEMENTS & CERTIFICATIONS

- Presented AI/ML research at ICEPAM-2024, demonstrating ability to document and communicate findings effectively
- Certified in NLP with Python (8 applied projects including sentiment analysis, text mining).**

SKILLS

Programming: Python, R, JavaScript, SQL, MongoDB

Data Science/ML: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, XGBoost, CNN, RNN, LSTM

Generative AI/NLP: Hugging Face, LangChain, GPT, Prompt Engineering, NER, Sentiment Analysis

Computer Vision: OpenCV, YOLO, OCR, Image Classification/Detection

Analytics & Viz: Power BI, Excel, Matplotlib, Seaborn, DAX

Backend: Node.js, Express.js, Django, Flask, REST APIs, JSON

Frontend: React.js, EJS, HTML5, CSS3, Bootstrap, JavaScript

Cloud/Deployment: AWS, GCP, Docker, Render, Vercel

Tools: Git, GitHub, Jupyter, Anaconda, Colab, Postman, Data Engineering basics

- Data preprocessing & cleaning
- Collaboration & Documentation
